

## How Big is God??

by Bruce Woolard

In order for the human mind to understand or comprehend the greatness of God we often are forced to think of God in human terms. The big word for such analysis is called "*anthropomorphism*."

You can imagine God to be small or big. When David the Shepherd boy in the Old Testament faced Goliath the giant, he saw the giant as being smaller than God because in his understanding of God's greatness, the Divine was mightier than the human. The rest of the army of Israel trembled in fear because Goliath seemed so big and impossible to defeat. David's view of God determined his victorious outcome

As you face your personal problems they may appear to be insurmountable. Is the giant of circumstances towering over you and intimidating your faith? Let the reality of God's bigness fill your vision and you will see how small your problem will become. Faith in God shrinks the doubt of the human heart. So the question remains, ***how big are you prepared to make God in your life?***

Enjoy the victory because the battle belongs to the Lord. Do not try to devise schemes, and stop plotting your course in quest of a solution. Your God is far bigger than your problem. The enemy of your soul is afraid of the great power and influence of God that lies within your life.

God bless today.

My God controls the wind and  
weather,  
He sends the sunshine and the  
rain,  
He holds the universe together  
With love He rules this vast  
domain.  
He understands each little  
heartache,  
He even knows the pain you  
bear,  
And He will never be too busy,  
To give an answer to your  
prayer.  
My God can do anything,  
Anything, anything.
